ACCESSORIES ACCESSORIES

QUIVERS

HCA-015 THE FLIPPER™ - 4-ARROW FRONT MOUNT INSTANT DETACH QUIVER
Attach and detach this innovative quiver instantly by simply flipping two levers. It effortlessly slides in or out of mounting holes in the CNC machined riser. Equipped with a sturdy tree-hanging bracket, arrow spreader and a large broadhead cup with an anti-rattle foam liner. Both right or left handed mounting.

HCA-020 5-ARROW SIDE MOUNT QUIVER
Solid, lightweight, and slim-lined, this versatile, high quality quiver easily mounts on either side of the crossbow stock for right or left-hand shooters. Its large broadhead cup with anti-rattle foam liner holds five broadheads supported by a sturdy arrow spreader.

HCA-030 8-ARROW SIDE MOUNT QUIVER (Not Pictured)
Identical to the 5-Arrow Quiver except it has a larger 8-arrow broadhead cup and arrow spreader to insure that you are carrying plenty of firepower.

SLINGS

HCA-001 BLACK POLAR FLEECE SLING
HCA-005 REALTREE™ CAMO POLAR FLEECE SLING
Extra-quiet in the woods, both of these polar fleece slings feature a longer design with non-slip shoulder pads and adjustable nylon straps to fit all ages. Includes sling swivels.

HCA-006 KELLY COOPER TRU-LEAF™ CORDURA SLING
Hunter's best sling. This good looking sling has completely adjustable nylon straps, and its double-padded rugged construction will provide you years of hard use. Includes sling swivels.

CROSSBOW TARGETS

HCA-095 FIELD POINT BAG TARGET (W/STAND)
Large 25" x 25" surface makes this mildew-resistant, durable practice target perfect for crossbows and compound bows using practice points. Effortlessly remove arrows with only your thumb and index finger.

HCA-100 FOAM BROADHEAD TARGET
This large 25" x 25" ethafoam target with 6# density, provides plenty of stopping power for field points and broadheads. The perfect target to evaluate your broadhead impact and grouping before you head for the woods.

SCOPES

HCA-085 4 POWER x 1" MINI CROSSBOW SCOPE (WITH RINGS)
Perfectly proportioned for any crossbow - at only 7" long - this light, compact scope features fully-coated optics, duplex cross hairs, and all-aluminum construction. An exceptional value, it comes with a battery and 3/8" mount scope rings.

HCA-083 RED DOT SCOPE - 30MM - 0-POWER (WITH RINGS)
With eleven brightness settings, this illuminated red dot, zero power scope delivers pinpoint accuracy and a wide angle view in all light conditions. Lightweight and compact, this all-aluminum scope comes with two tube extension lens shades, (short and long), anti-glare polarizing filter, and 3/8" mount scope rings.

HCA-084 RED DOT SCOPE - 1" - 0-POWER (WITH RINGS)
Includes the same features of the 30mm except it has one tube extension lens shade and a rubber eyepiece extension for additional comfort.

HCA-086 RANGEMASTER™ SCOPE SIGHT ADJUSTMENT MECHANISM
This kit contains two different sight adjustment cams. One cam (original design) is used along with a scope mount base accessory (HCA-080 or HCA-077) to add scope compatibility and thumb-operated range adjustment capability to the original HuntsMan™ Advantage™ crossbow. The other (new design) offers smoother, improved operation you can upgrade to if your current crossbow contains a second-generation trigger housing (beginning part way through '95).

CASES

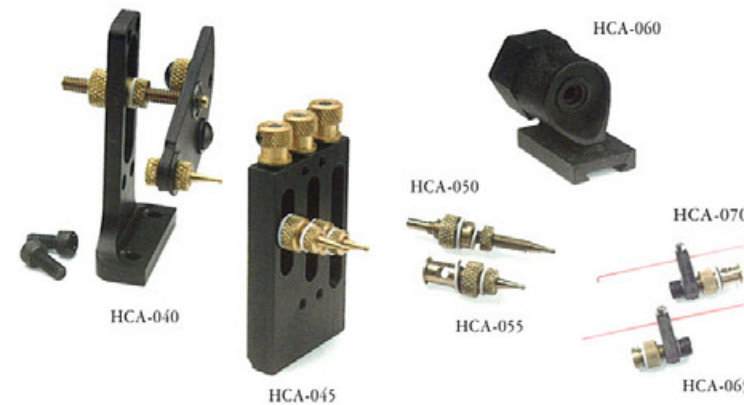

HCA-200 DELUXE TWO-POCKET CROSSBOW CASE IN KELLY COOPER TRU-LEAF™ CAMO
Without question, the best looking and most durable crossbow case made. This deluxe version includes a large pocket, which holds two Hunter's crossbow bolt 3-packs, and a smaller accessory pocket for your miscellaneous paraphernalia.

HCA-205 STANDARD CROSSBOW CASE IN KELLY COOPER TRU-LEAF™ CAMO (Not Pictured)
Identical to Hunter's Deluxe Case but without pockets. Made to last, these heavy duty construction cases come with extra-thick padding for optimum protection. The perfect case to protect your investment.

HCA-230 MEDIUM DUFFEL BAG IN KELLY COOPER TRU-LEAF™ CAMO
A must for every hunter. Includes two side pockets for easy access to small accessories. Water repellent, rip-stop, indestructible Cordura construction with heavy-duty nylon straps.

HCA-235 SMALL DUFFEL BAG IN KELLY COOPER TRU-LEAF™ CAMO (Not Pictured)
A more compact version of the Medium Duffel Bag, this versatile size will give you many years of hard hunting service.

SIGHTS

HCA-040 RANGEMASTER™ TREE STAND SIGHT
Bullseye accurate between 5 and 35 yards, this pendulum style sight totally eliminates guesswork in estimating yardage. It is adjustable to fit on most of today's modern crossbows but requires bolt speed at or in excess of 250 fps for reliable results. Designed to be used from a tree stand mounted between 12 and 18 ft.

HCA-041 STANDARD FRONT SIGHT
A replacement accessory for the HuntsMan™ Advantage™ front sight (see HuntsMan photo), this single-pin sight mounts on either side of the riser. It can also be mounted opposite your tree stand sight for combination ground and tree stand level sighting capability. The accessory kit includes mounting screws, sight blade, and sight pin. Rust-free and sturdy aluminum construction.

HCA-045 RANGEMASTER™ MICRO FRONT SIGHT
CNC-machined for accuracy, this is the finest front sight ever made for a crossbow. With micro-adjustable elevation and windage movement, this precision instrument mounts and locks securely to any of Hunter's Manufacturing crossbows. It is standard equipment on the HuntMaster™ and 458 Magnum™ and is also available as an optional accessory for the HuntsMan™. Includes mounting screws, two sight pins and a third slot for an optional pin.

HCA-050 STANDARD SIGHT PIN
HCA-055 RANGEMASTER™ MICRO SIGHT PIN
Replacement or optional additional pins for The Standard Front Sight and the Micro Front Sight.

HCA-060 RANGEMASTER™ PEEP SIGHT
Unique hexagonal peep sight comes with a locking set screw which allows you to position the peep any distance from your eye along virtually any standard 3/8" dovetail mounting base. This variable position feature allows you to increase and decrease the field of view and the perceived diameter of the aperture for eye comfort and variable light conditions.

HCA-065 POWER DOT STANDARD SIGHT PIN
HCA-070 POWER DOT MICRO SIGHT PIN
The brightest non-battery light gathering sight pins ever made. While the Power Dot Micro Sight Pin is made exclusively for the RangeMaster™ Micro Front Sight, the Standard version, with its double-locking hardware, mounts to most traditional sights - both crossbow and compound. Their incredible light gathering ability make them shine like a beacon in low light conditions.

SHOOTING AIDS

HCA-087 POUNDAGE CONVERSION KIT
The perfect solution for anyone who prefers a lighter draw weight but still wants more than enough speed and kinetic energy to harvest big game. Following simple instructions, convert the draw weight of your Hunter's Manufacturing crossbow from 150 pounds - in 5 pound increments - down as low as 110 pounds.

HCA-090 BROADHEAD ARROW TUNER
The only broadhead flight tuner available which allows you to micro-adjust the tension and elevation of the tuning spring. Made exclusively for the RangeMaster™ Micro Front Sight, it lets you fine tune the flight of a variety of broadheads.

HCA-110 STRING AND SYNTHETIC CABLE WAX
Increase the life of your string and synthetic cables and prevent drying out by keeping them moist and resilient with this special blend of wax.

HCA-111 FLIGHT GROOVE/TRIGGER LUBE (6 cc CONTAINER)
The finest multi-purpose lubricant available anywhere. Dramatically increases lubricity between metal surfaces and moving parts. Smooths and seals metal surfaces with no buildup or change in tolerances. Use occasionally to lubricate trigger parts and wheels and regularly to reduce friction on the flight groove and rail.
