PRODUCT CATALOG

PERFORMANCE RUNS IN THE FAMILY.™

FAMILY OWNED. LOCALLY OPERATED.
HUNTER FOCUSED.

When you purchase a TenPoint, you purchase more than just a crossbow. You become a part of the TenPoint family. Since CEO Rick Bednar started the company in 1994 with his father, the late Hall of Fame Archer Bill Bednar, and his two sisters, TenPoint has been a family owned business whose sole focus is providing the highest quality crossbows manufactured in America. Now, his two sons and nephew have made it their careers and continue that vision today.

With over 30 industry-leading patents – each precision engineered to inspire performance at every draw – it's easy to see why TenPoint, Horton, and Wicked Ridge are the world's most accurate hunting crossbows.

WELCOME TO THE
NXT GENERATION.

EXPERIENCE THE
TENPOINT DIFFERENCE

[1]

PATENTED COCKING DEVICES:

Allow hunters of all ages and physical abilities to enjoy bowhunting.

[2]

SAFETY ENGINEERED FORE-GRIP (PATENT-PENDING) AND WINGS (PATENTED):

Designed to help keep the shooter's fore-grip hand and fingers safely below the bowstring release path.

[3]

DFI™ (DRY-FIRE-INHIBITOR):

Prevents dry-firing the crossbow when not loaded.

[4]

3.5 LB TRIGGER WITH AUTO-ENGAGING SAFETY:

Delivers a smooth, crisp trigger-pull for increased accuracy with optimum creep for safety.

[5]

OUT-OF-THE-BOX ACCURACY:

Every crossbow is bore-sighted at the factory before arriving to the customer.

[6]

DROP-TESTED STOCKS:

2x stronger than competitors' ABS stocks.

[7]

SUPERIOR STRING LIFE:

Every crossbow is built with optimal downward string pressure, reducing string friction and allowing it to last up to 75% longer than competitors' string.

[8]

CUSTOM CNC-MACHINED TYPE II CAMS, RISERS, AND LIMB POCKETS:

Parts are held to a 3x tighter tolerance than competitors.

PATENTED OMNI-NOCK®:

Unique six-groove design eliminates indexing problem of moon and capture nocks and is 66% more reliable.

MADE IN AMERICA
AKRON, OHIO

All TenPoint, Horton, and Wicked Ridge crossbows are designed, built, tested, and manufactured in America – allowing us to control the process and to use the best parts and materials available, thereby guaranteeing a final product of uncompromising quality.

[NEW FOR 2018]

NITRO X™

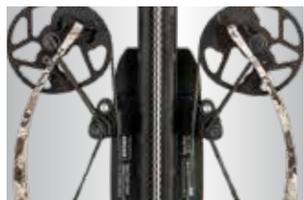

The fastest and most compact crossbow has arrived. Measuring an ultra-narrow 7-inches wide, the reverse-draw Nitro X features new SLING-SHOT™ technology that unleashes supercharged speeds up to 440 feet-per-second, generating a jaw-dropping 166-foot pounds of kinetic energy and unmatched down-range accuracy.

PAGE: **[09]** [up to **440 FPS**]

[NEW TECHNOLOGY]

SLING-SHOT TECHNOLOGY

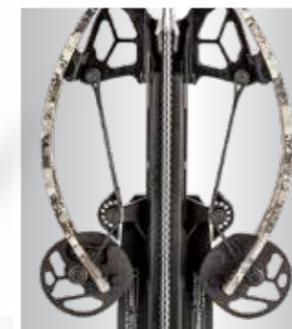

PERFECTION LIVES HERE.™

[NEW FOR 2018]

STEALTH NXT™

TenPoint's narrowest and most accurate crossbow ever. Measuring an incredible 6-inches wide, the Stealth NXT delivers devastating speeds up to 410 feet-per-second, generating an earth-shattering 144-foot pounds of kinetic energy.

PAGE: **[12]** [up to **410 FPS**]

[NEW TECHNOLOGY]

Vector Quad™ cable technology eliminates cam lean – ensuring straight arrow flight and producing match-grade down-range accuracy.

[NEW FOR 2018]

SHADOW NXT™

Unprecedented performance at its price-point. Measuring an ultra-compact 6.5-inches wide, the Shadow NXT shoots up to 380 feet-per-second, generating a powerful 122-foot pounds of kinetic energy.

PAGE: **[13]** [up to **380 FPS**]

[NEW FOR 2018]

COCKING DEVICES

ACUDRAW PRO™ PAGE [30]

Completely silent, and fully integrated into the stock, the new ACUdraw PRO converts crossbow draw weights to 5-pounds of effort. It features a newly designed internal gear system that silently cocks the crossbow and reduces the number of cranks needed to do so to 12 – an incredible 40% faster than previous ACUdraw models. With a new auto-engaging lever and ACUtorq crank handle that eliminates the possibility of over-cranking, it is the fastest, lightest, quietest, and safest cocking device on the market.

*Available as an accessory or pre-installed on certain models.

ACUTORQ™ PAGE [30]

The new ACUtorq crank handle employs a torque control mechanism that eliminates the possibility of over-cranking the ACUdraw cocking device once the crossbow is cocked, thus reducing the chance of damaging the unit. Compatible with the ACUdraw cocking device as an accessory and packaged with the new ACUdraw PRO, the handle stores in the stock's storage cavity.

ACUDRAW 50 SLED™ (PATENTED) PAGE [30]

Fully integrated into the stock and featuring a newly designed sled with detachable handles, the new ACUdraw 50 SLED reduces a crossbow's draw weight by 50%. The device is equipped with a heavy-duty draw cord housed in sleek covers that are contoured to fit the stock and reduce the overall weight of the unit. Compatible with all TenPoint and Horton crossbows with Functionally Superior Bullpup (FSB) stocks, including ultra-narrow and reverse-draw crossbows (except the Nitro X) and most Wicked Ridge crossbows, the sled design also improves cocking consistency, leading to greater down-range accuracy.

*Available as an accessory or pre-installed on certain models.

ACUSLED™ (PATENTED) PAGE [31]

A portable, retractable rope-cocker designed for most TenPoint, Horton, and Wicked Ridge crossbows*, including reverse-draw and acute string angle crossbows, the new ACUsled reduces a crossbow's draw weight by 50% and reduces the risk of inaccurate cocking that can occur with traditional rope-cockers, and thus, improves a shooter's accuracy. The lightweight unit's draw cord is pound-for-pound 15 times stronger than steel and completely retracts inside one of the two grips after cocking the crossbow. Then, the grips dovetail neatly together to form a compact unit for easy storage.

* Compatible with all TenPoint and Horton crossbows with Functionally Superior Bullpup (FSB) stocks, including ultra-narrow and reverse-draw crossbows (except the Nitro X) and most Wicked Ridge crossbows.

[NEW FOR 2018] ACCESSORIES

OMNI-BRITE™ 2.0 READY PRO ELITE™ CARBON CROSSBOW ARROWS PAGE [33]

TenPoint's best-selling arrow is now Omni-Brite 2.0 ready. Simply remove the yellow Omni-Nock® and install the Omni-Brite 2.0 Lighted Nock System for improved arrow flight visibility.

STAG™ HARD CROSSBOW CASE PAGE [35]

Designed for maximum protection and durability, this ultra-slim, lockable case is built with a rigid shell wrapped in polyester, an interior equipped with two hook-and-loop straps to secure your crossbow, a side-loading quiver location, and a velvet lining for added protection. It also features a rubber grip handle for easy transportation and a side hinge for easy opening. Its integrated foot stirrup pass-thru allows you to hang the crossbow, in its case, for easy storage. The STAG case fits TenPoint's new ultra-narrow Nitro X, Stealth NXT, and Shadow NXT crossbows.

NOISE DAMPENING PACKAGES PAGE [35]

TenPoint's Noise Dampening Packages progressively reduce decibel levels and shorten noise duration on crossbows and/or vertical bows and are available in two different packages. The complete Universal Noise Dampening Package™ includes a set of Bowjax limb vibration dampeners that fit limbs with gaps of 1 1/16" – 1 3/8", a retention spring dampener, foot stirrup dampeners, and barrel dampeners. The smaller Universal Limb and Foot Stirrup Silencing Package™ includes only limb and foot stirrup dampeners and fits most crossbows and vertical bows.

UNIVERSAL NOISE DAMPENING PACKAGE

UNIVERSAL LIMB AND FOOT STIRRUP SILENCING PACKAGE

PREMIUM ACCESSORY SERIES

EVO-X is a world-class brand of universal hunting products designed to enhance and elevate the hunting experience.

Designed in America and manufactured with the highest quality components available, EVO-X products are infused with the industry's most technologically advanced features and are subject to extensive and rigorous testing standards to ensure a final product that delivers superior performance.

EVO-X CENTERPUNCH™ ARROW

PAGE [34]

Weighing 445-grains and featuring 17% FOC, the new CenterPunch arrow improves crossbow accuracy by a remarkable 25%.

Equipped with an 84-grain lead-free brass insert and fletched with a 3.5" Bohning X Vane™, the arrow is constructed from modulus carbon fiber at 33 MSI (million-pounds-per-square-inch). Its exclusive LAZER-TECH carbon weave reduces spine variation by 80% and increases strength by 40% – resulting in less breakage and increased accuracy due to reduced ovalizing at launch.

Featuring the patented Omni-Nock/Omni-Brite systems for easy nock changing and lighting capability, each arrow is inspected for straightness to within .001" and each package is weight-grain matched to within 1-grain per arrow. The arrow is available in 6-packs without lighted nocks or 3-packs with lighted nocks. Each package includes both Omni-Nocks and moon nocks, making the arrow compatible with most crossbows on the market.

HAMMERHEAD™ HARD CROSSBOW CASE

PAGE [35]

Designed for maximum protection and durability, this lockable case is built with a rigid shell wrapped in polyester, and an interior equipped with two hook-and-loop straps to secure your crossbow, a top-loading quiver location, and a velvet lining for added protection. It also features a rubber grip handle for easy transportation and a side hinge for easy opening. Its integrated foot stirrup pass-thru allows you to hang the crossbow, in its case, for easy storage. The Hammerhead case fits most forward and reverse draw crossbows on the market.

EVO-X MARKSMAN™ SCOPE PAGE [36]

The Marksman is built to maximize performance in both hunting and competitive shooting situations. Waterproof and fog-proof, it features a variable speed and arrow drop-compensation setting for crossbows that shoot between 330 and 450 FPS.

Its configuration consists of five illuminated duplex crosshairs calibrated for 10-yard increments between 20- and 60-yards, two non-illuminated duplex crosshairs at 70- and 80-yards, and 90- and 100-yard breaks for competition and recreational shooting. An infinite-position rheostat controls the light intensity of the red illuminated crosshairs.

The scope's ultra-strong 30mm tube is equipped with etched glass reticles and fully multi-coated 2-7x optics that increase field-of-view in low light settings. It's quick-detach scope rings allow for easy installation and removal of the scope, and include a built-in level for added accuracy. High-quality flip-up scope caps provide unmatched protection for your optics and can be opened at the touch of your thumb.

[NEW] NITRO X™

7-INCHES WIDE

SPEED:

HORTON

CROSSBOW INNOVATIONS

ADRENALINE FUELED.

With bloodlines rooted in the elite quality, durability, and performance TenPoint owners have come to expect, Horton crossbows feature precision-engineered reverse-draw technology designed for superior balance and efficiency to seize your season-defining moment.

[1]

Ultra-narrow reverse-draw bow assembly seated in the middle of the barrel provides a remarkable balance point – allowing you to hold steady and keep the crosshairs locked on target for that perfect opportunity.

[2]

RDX laminated limbs powered by an efficient RDX Cam System™ and DynaFLIGHT 97 string and cables generate a quiet, lethal shot.

[3]

Machined aluminum RDX cams featuring 440 stainless steel bearings improve stability and down-range accuracy.

[4]

Machined, lightweight aluminum riser and pockets provide added cushioning that reduces limb stress – adding years of performance on your crossbow.

ADRENALINE FUELED.

ACUDRAW 50:

The patented ACUdraw 50 reduces the crossbow's draw weight by 50%, and with a new quick install adapter plate, it can now be mounted on all previous and current Wicked Ridge models.

[NEW TECHNOLOGY]

X-CORE STOCK:

- [1]** Open-back design dramatically reduces weight and allows for easy installation of either an ACUdraw or ACUdraw 50 with a quick-install adapter plate.
- [2]** Fully-integrated pass-thru fore-grip provides protection and comfort and is backed-up with elongated safety wings to help keep the shooter's hand and fingers safely below the bowstring release path.
- [3]** Ergonomic pistol grip with a fully enclosed trigger guard provides added safety.
- [4]** Built-in picatinny rail below the front of the barrel for easy mounting of additional accessories.

BOW ASSEMBLY:

Powered by new, speed-inspired 4ST™ cams, the new bow assembly measures an incredibly narrow 15-inches wide. Built for pin-point accuracy, it consists of a newly designed riser and machined aluminum limb pockets fitted with 11" WRX laminated limbs.

[NEW] INVADER™ X4

SPEED:

SIX INNOVATIVE COCKING DEVICES

TO MEET YOUR BOWHUNTING NEEDS.

GEAR ASSISTED COCKING DEVICES

USER-FRIENDLY AND PRACTICAL SOLUTIONS FOR COCKING A CROSSBOW EFFORTLESSLY AND ACCURATELY.

Fully integrated into the stock, with no dangling parts, they require only the strength of the average person's index finger to operate. The ACUdraw PRO and ACUdraw allow hunters of all ages and physical abilities to enjoy the great experience of bowhunting.

[NEW] ACUDRAW PRO THE FASTEST, LIGHTEST, QUIETEST, AND SAFEST COCKING DEVICE

- Reduces draw weight to 5-pounds
- Silent operation
- Requires 12 full revolutions to cock most crossbows – 40% faster than the ACUdraw
- 4-ounces lighter than the ACUdraw model
- New auto-engage lever activates the gear system immediately as cranking begins
- Included ACUtorq handle eliminates the possibility of over-cranking, and fits securely into the stock storage cavity
- Draws the bow accurately every time
- Available as an accessory or pre-installed on certain models

[NEW] [HCA-001-PRO] ACUdraw PRO

ACUDRAW A TIME-TESTED, PREMIERE COCKING DEVICE

- Reduces draw weight to 5-pounds when operated manually
- Lightweight and has no bulky clamp-on assemblies or hang-on accessories
- Draws the bow accurately every time
- Available as an accessory or pre-installed

[HCA-001-B-AD] ACUdraw

[NEW] ACUTORQ NEVER OVER-CRANK YOUR ACUDRAW AGAIN

The ACUtorq handle employs a unique torque control mechanism that eliminates the possibility of over-cranking any ACUdraw unit once the crossbow is cocked, reducing the chance of damaging the unit. Its sleek design allows storage in stocks that currently have a storage cavity already cutout. Two versions are available.

The ACUtorq is compatible with the original ACUdraw cocking device as an accessory, and packaged with the new ACUdraw PRO.

- Eliminates over-cranking
- Stores securely in the storage cavity of most stock models
- Compatible with all previous ACUdraw cocking devices

[NEW] [HCA-445-ACU] ACUtorq Handle (for use with original ACUdraw except Stealth NXT and Shadow NXT – red cap on handle)

[NEW] [HCA-445-PRO] ACUtorq Handle (for use with ACUdraw PRO and with ACUdraw on Stealth NXT and Shadow NXT – black cap on handle)

INTEGRATED ROPE COCKING DEVICES

Fully integrated into the stock, the ACUdraw 50 SLED and ACUdraw 50 have taken the leveraged, 50% reduction rope-cocking concept to an easy-to-use level. Their cord/ropes retract neatly inside the unit's housing after cocking. Lightweight, contoured covers provide improved security of the unit and its cord/ropes when not in use. No storing a cocking rope, untangling it, or putting it away after each use.

[NEW] ACUDRAW 50 SLED (PATENTED) MAKES COCKING NARROW CROSSBOWS A BREEZE

- Compatible with all TenPoint and Horton crossbows with Functionally Superior Bullpup (FSB) stocks, including ultra-narrow and reverse-draw crossbows (except the Nitro X) and most Wicked Ridge crossbows
- Draws the bow accurately every time
- Reduces the draw weight by 50%
- Features a newly designed sled with detachable, magnetic handles
- When not in use, powerful mini-magnets hold the detachable handles securely and silently in place
- Available as an accessory or pre-installed

[NEW] [HCA-000-A50-S] ACUdraw 50 SLED (not for use on Nitro X)

ACUDRAW 50 (PATENTED) TAKING TRADITIONAL ROPE-COCKER TO A HIGHER LEVEL

- Draws the bow accurately every time
- No more need to hang a rope around your neck or to stash it in your fanny pack
- When not in use, powerful mini-magnets hold the handles securely and silently in place
- Available as an accessory or pre-installed
- Not compatible with ultra-narrow or reverse-draw crossbows

[HCA-000-B-A50] ACUdraw 50 (not for use on ultra-narrow or reverse-draw crossbows)

RETRACTABLE

ROPE COCKING DEVICES

The ACUsled and ACUrope are revolutionary portable, retractable crossbow rope-cockers that cock a crossbow like traditional rope-cockers on the market today – but that’s where the comparison ends. When the shooter is finished cocking the bow, the ACUsled or ACUrope’s draw cord completely retracts inside one of the two grips. Then, the grips dovetail neatly together to form a compact unit for easy storage.

They also reduce the risk of inaccurate cocking that can occur with traditional rope-cockers, and thus, improves a shooter’s accuracy.

The unit’s slender draw cords, pound-for-pound, 15-times stronger than steel, are made of heat and abrasion resistant SPECTRA® 1000 fiber.

[NEW] ACUSLED (PATENTED)
INDUSTRY’S ONLY PORTABLE,
FULLY RETRACTABLE, ROPE-SLED

- ✔ Compatible with all TenPoint and Horton crossbows with Functionally Superior Bullpup (FSB) stocks, including ultra-narrow and reverse-draw crossbows (except the Nitro X) and most Wicked Ridge crossbows
- ✔ Reduces draw weight by 50%
- ✔ Clever, convenient, and user-friendly
- ✔ Draws the bow accurately every time
- ✔ Lightweight and affordable
- ✔ No more dangling ropes or handles

[NEW] [HCA-000-AS] ACUsled

ACUROPE (PATENTED)
INDUSTRY’S FIRST COMPACT, FULLY RETRACTABLE ROPE-COCKER

- ✔ Clever, convenient, and user-friendly
- ✔ Draws the bow accurately every time
- ✔ Lightweight and affordable
- ✔ No more dangling ropes or handles
- ✔ Works on most crossbow brands on the market

[HCA-000-B-R] ACUrope

PATENTED OMNI-NOCK AND PATENT-PENDING OMNI-BRITE 2.0 LIGHTED NOCK SYSTEM

A REVOLUTION IN CROSSBOW ARROW NOCK TECHNOLOGY

YOUR ONE-STOP SOURCE FOR CROSSBOW ARROWS

Regardless of which arrow you shoot, you no longer need to choose between moon, capture, or flat nocks. TenPoint’s patented Omni-Nock and patent-pending lighted version, the Omni-Brite 2.0 Lighted Nock System, make these special-purpose nocks obsolete.*

The Omni-Nock and Omni-Brite 2.0 designs each feature six micro-grooves that form three bowstring channels which eliminate the indexing problem associated with moon and capture nocks.

AN OMNI-NOCK FOR EVERY CROSSBOW ARROW

Each TenPoint, Horton, and Wicked Ridge arrow comes pre-installed with an Omni-Nock.

Because the channel “holds” the bowstring in place, the Omni-Nock also prevents flat-nock “shoot-over” or shoot-under”, a growing problem with today’s narrow crossbows with acute string angles.

Our full arrow line-up of lightweight and standard-weight crossbow arrows offer you the perfect arrow for whichever shooting or hunting situation you face.

* Engineered for TenPoint Crossbow Technologies, Horton Crossbow Innovations, and Wicked Ridge Crossbows, the Omni-Nock works well on other manufactures’ models with precise and consistent bowstring alignment. Check your manufacturer’s arrow specifications. If it specifies or requires a moon or capture nock, please follow its recommendation.

Micro-grooves form bowstring channels which eliminate the indexing problem associated with moon and capture nocks.

OMNI-BRITE 2.0 LIGHTED NOCK SYSTEM

The three-piece, patent-pending Omni-Brite 2.0 Lighted Nock System begins with a nock receiver insert with a six-sided interior cavity designed to accept a combined LED Unit and transparent pegged Omni-Brite 2.0 Nock. The Nock Receiver glues into the nock-end of the arrow and must be indexed or aligned with the vanes. Like the Omni-Nocks, Nock Receivers employ the same color-scheme and are, therefore, arrow specific.

To complete the Omni-Brite 2.0 installation, insert the LED Unit – lighted end first – into the peg end of the Omni-Brite 2.0 Nock and insert the Nock and LED Unit into the Nock Receiver. Then, insert the nock tabs between the receiver’s locking clips until you hear/feel it click into place. When you fire your crossbow, the bowstrings force will compress the two pieces, eliminate the gap, and activate the LED.

To deactivate the Omni-Brite 2.0 System, remove the Nock and LED Unit, and pull the lighted end of the LED Unit until the light is off. The LED Unit’s battery should last for approximately eight hours.

[HEA-368.3] 3-pack (Omni-Brite 2.0 Lighted Nock System – not shown)

[HEA-343.6] 6-pack (clear Omni-Brite 2.0 replacement moon caps – not shown)

- HEA-730.6** 6-pack
- HEA-730.72** 72-pack
- HEA-734.3** 3-pack (Omni-Brite 2.0 lighted arrows)

*All 3- and 6-packs come with 100-grain field points

[NEW] EVO-X CENTERPUNCH CARBON ARROW
STANDARD-WEIGHT / 445-GRAINS / BALANCED AT 17% FOC

The most accurate crossbow arrow ever, the CenterPunch 20-inch arrow is fletched slightly offset and is fitted with an 84-grain insert and TenPoint's white SuperBrite Omni-Nock and receiver for quick lighted nock installation. Constructed from modulus carbon fiber at 33 MSI (million-pounds-per-square-inch) and wrapped in an exclusive LAZER-TECH carbon weave, it is fletched with 3.5" Bohning X Vanes™. CenterPunch arrows are inspected for straightness to within .001 and each package is weight-grain matched to within 1-grain per arrow.

- HEA-630.3** 3-pack
- HEA-630.6** 6-pack
- HEA-630.72** 72-pack
- HEA-638.3** 3-pack (Omni-Brite 2.0 lighted arrows)
- HEA-638.6** 6-pack (Omni-Brite 2.0 lighted arrows)
- HEA-638.72** 72-pack (Omni-Brite 2.0 lighted arrows)

*All 3- and 6-packs come with 100-grain field points

PRO ELITE CARBON ARROW
STANDARD-WEIGHT / 425-GRAINS / BALANCED AT 14% FOC

The Pro Elite 20-inch carbon arrow is fletched slightly offset and is fitted with a 68-grain brass insert, 3.5" Bohning X Vanes™ and TenPoint's neon yellow SuperBrite Omni-Nock and receiver for quick lighted nock installation. Pro Elite shafts are inspected for straightness to within .003 and hand-sorted for weight tolerance to within 2-grains per dozen.

- HEA-002.3** 3-pack
- HEA-002.6** 6-pack
- HEA-002.72** 72-pack
- HEA-038.3** 3-pack (Omni-Brite 2.0 lighted arrows)
- HEA-038.72** 72-pack (Omni-Brite 2.0 lighted arrows)

*All 3- and 6-packs come with 100-grain field points

XX75 MAGNUM ALUMINUM ARROW
STANDARD-WEIGHT / 435-GRAINS / BALANCED AT 9% FOC

The XX75 Magnum 20-inch 2219 aluminum arrow is fletched slightly offset and is fitted with a 13-grain aluminum insert, 3.5" Bohning X Vanes™ and TenPoint's neon orange SuperBrite Omni-Nock.

- HEA-722.6** 6-pack
- HEA-722.72** 72-pack
- HEA-728.3** 3-pack (Omni-Brite 2.0 lighted arrows)

*All 3- and 6-packs come with 100-grain field points

HORTON CARBON ARROW
STANDARD-WEIGHT/ 400-GRAINS/ BALANCED AT 14% FOC

The Horton 20-inch carbon arrow is fletched slightly offset and is fitted with a 43-grain aluminum insert, 3.5" Bohning X Vanes™ and TenPoint's neon green SuperBrite Omni-Nock. Horton shafts are inspected for straightness to within .003 and hand-sorted for weight tolerance to within 2-grains per dozen.

- HEA-460.6** 6-pack
- HEA-460.72** 72-pack
- HEA-428.3** 3-pack (Omni-Brite 2.0 lighted arrows)

*All 3- and 6-packs come with 100-grain field points

PRO LITE CARBON ARROW
LIGHTWEIGHT/ 370-GRAINS/ BALANCED AT 10.5% FOC

The Pro Lite 20-inch carbon arrow is fletched slightly offset and is fitted with a 25-grain aluminum insert, 3.5" Bohning X Vanes™ and TenPoint's neon green SuperBrite Omni-Nock. Pro Lite shafts are inspected for straightness to within .003 and hand-sorted for weight tolerance to within 2-grains per dozen.

- HEA-201.6** 6-pack
- HEA-201.72** 72-pack
- HEA-204.3** 3-pack (Omni-Brite 2.0 lighted arrows)

*All 3- and 6-packs come with 100-grain field points

WICKED RIDGE RANGER CARBON ARROW
LIGHTWEIGHT/ 350-GRAINS/ BALANCED AT 15% FOC

The Ranger 18-inch carbon arrow is fletched slightly offset and is fitted with a 15-grain aluminum insert, 3.5" Bohning X Vanes™ and neon yellow SuperBrite Omni-Nock.
NOTE: the Ranger arrow is for use with Wicked Ridge Ranger models only.

CROSSBOW ACCESSORIES

NEOPRENE SLINGS

Featuring an extra strong 1.25-inch wide shoulder strap, Omni-CUB (Crossbow Unloading Bolt) storage, thumb loop, and a non-slip design. Equipped with custom swivels and heavy-duty adjustable strap. Includes one Omni-CUB.

HCA-004	TenPoint
HCA-00415-H	Horton
WRA004	Wicked Ridge

CROSSBOW CASES

[NEW] HARD CASES

Designed for maximum protection and durability, these rigid, water-resistant cases feature an extremely durable shell, as well as a velvet interior for added protection. The interior of the case includes two hook and loop straps to secure the crossbow during travel, and storage for a quiver that also includes straps. An integrated stirrup pass-thru with storm flap allows you to hang the crossbow, in the case, for easy storage. If used with TSA approved locks, the case is TSA compliant.

[NEW] HCA-20318 TenPoint STAG Case: Black / Fits ultra-narrow crossbows
DIMENSIONS: Case Length: 36.75" (not including foot stirrup pass-thru) / Case Width: 18" / Case Depth: 10.75" / Interior Length: 36.25" / Interior Width: 17.5" / Interior Depth: 10.25"

[NEW] HCA-20018 EVO-X Hammerhead Case: Black / Fits most forward & reverse-draw crossbows

DIMENSIONS: Case Length: 36.75" (not including foot stirrup pass-thru) / Case Width: 27.5" / Case Depth: 10.75" / Interior Length: 36.25" / Interior Width: 27" / Interior Depth: 10.25"

SOFT CASES

These ultra-durable soft cases ensure protection needed for travel and/or storage of your crossbow. They contain deep, sturdy side panels to accommodate mounted optics, zippered compartment for accessories, and a shoulder strap.

HCA-20016-T	TenPoint Embroidered Soft Case / Black / Fits all TenPoint crossbows
HCA-20015-H	Horton Embroidered Soft Case / Black / Fits all Horton crossbows
WRA200	Wicked Ridge Embroidered Soft Case / Camo / Fits all Wicked Ridge crossbows

STEDDYEDDY® (PATENTED)

The SteddyEddy telescoping two-section monopod ensures motion-free shooting while seated or standing. It attaches directly to your crossbow using a 360-degree maneuverable rapid-pivot tube equipped with a snap-on connection and clamps under your stock when not in use. Comes with a cushioned hand grip, a carbide tip that grips rock and ice, and a removable rubber support ball.

HCA-030	SteddyEddy Crossbow Monopod System (compatible with TenPoint, Horton Crossbow Innovations, and Wicked Ridge crossbows)
HCA-031	SteddyEddy Rapid-Pivot Retrofit Kit (not shown)

SILENCERS

Private labeled exclusively for TenPoint by Bowjax, Inc. the Noise Dampening packages progressively reduce decibel level and shorten noise duration when used on compound crossbows and/or vertical bows. Two versions are available.

[NEW] HCA-13617 Noise Dampening Package - for crossbows with limb gap of 11/16" - 1 3/8" (Includes limb vibration dampeners, a retention spring dampener, foot stirrup dampeners, and barrel dampeners)

[NEW] HCA-13718 Universal Limb and Foot Stirrup Silencing Package - Limb & foot stirrup dampeners only, for most compound crossbows and/or vertical bows

SDS™ (STRING DAMPENING SYSTEM) (PATENTED)

Featuring micro-adjustable dampening rods with durable, high impact rubber dampeners the SDS mounts in the cable slot to dramatically reduce string noise and oscillation. The SDS is compatible with post-1999 TenPoint Crossbow Technologies thumbhole models, except the GT Curve™. Also compatible with all pre-2015 Wicked Ridge crossbows, all Raider CLS™ and Warrior HL™ models, and Horton Legend Ultra Lite™ crossbows.

HCA-149	SDS (String Dampening System)
---------	-------------------------------

SCOPES

[NEW] EVO-X MARKSMAN™ SCOPE

This waterproof and fog-proof scope features fully multi-coated 1.5 to 5x optics, with a variable speed and arrow drop-compensation setting for crossbows that shoot between 330 and 450 fps. The configuration consists of five red duplex crosshairs that are calibrated for 10-yard increments between 20- and 60-yards, two non-illuminated duplex crosshairs at 70- and 80-yards, and 90- and 100-yard breaks for competition and recreational shooting. An infinite-position rheostat controls the light intensity of the illuminated crosshairs.

RANGEMASTER® PRO SCOPE

This 8.25-inch aluminum scope features a variable speed and arrow drop-compensation setting for crossbows that shoot between 275 and 425 fps, and requires no adjustment for distance. Three duplex crosshairs and five dots calibrated for 20-, 30-, 40-, 50- and 60-yards (fourth and fifth dots are free-standing, just below the 40-yard crosshair) are available with a non-illuminated black dot or one of two rheostat controlled illuminated, colored dots (red or green). An etched glass reticle and fully multi-coated 1.5 to 5x optics reduce the loss of light transmission, while a 30mm tube heightens light-gathering and durability.

3X PRO-VIEW 2™ SCOPE

Calibrated for crossbows that shoot in the 330 fps range, this lightweight 8.5-inch aluminum tube scope features 3 crosshairs and four dots calibrated for 20-, 30-, 40-, and 50-yards (fourth dot is free-standing, just below the 40-yard crosshair) and fully-coated 3x optics. Available with non-illuminated black dots or one of two rheostat controlled illuminated, colored dots (red or green).

MULTI-LINE SCOPE

Only 8.5-inches long, this compact scope features fully coated 3x optics and three duplex crosshairs calibrated for 20-, 30-, and 40-yards and a fourth partial line for 50-yard shots. Scope mounting rings included.

- [NEW]** HCA-095 Marksman Scope with 7/8" mounting rings and flip-up scope caps (rings & caps not shown)
- HCA-098T1 RangeMaster Pro Scope with 7/8" mounting rings
- HCA-097-II 3x Pro-View 2 Scope with 7/8" mounting rings
- HCA-088 Multi-Line Scope with 7/8" mounting rings

MAINTENANCE

TENPOINT STRING WAX AND CONDITIONER

Made from all natural compounds. Comes in a convenient chap-stick style tube. Lubricates and rejuvenates bow strings and cables.

FLIGHT RAIL AND TRIGGER LUBE

Unlike other manufacturers' gel-based lubricants, will not gum-up in cold weather or collect dirt and grit.

- HCA-11007 TenPoint String Wax and Conditioner
- HCA-111 Flight Rail and Trigger Lube

MISCELLANEOUS

OMNI-CUB™ (CROSSBOW UNLOADING BOLT) (PATENTED)

An improved version of the original Crossbow Unloading Bolt™ (CUB) features our patented Omni-Nock technology and may be used to unload any crossbow, including reverse-draw models and models with extremely narrow bow assemblies. Made from biodegradable polymer, it naturally decomposes over time to minimize environmental impact.

- HEA-000176 Omni-CUB (Crossbow Unloading Bolt) [6-pack]

GRIPGUARD™ (PATENTED)

The GripGuard is a shield that custom fits over post-1999 thru 2013 TenPoint synthetic stock model fore-grips with or without a GripSafety™. The wings at the top of the shield help prevent a shooter's fore-grip fingers and/or thumb from dangerously migrating above the flight deck while shooting the crossbow.

* Available at no charge, contact Customer Service at 330-628-9245 option 2.

- HCA-10014 Molded GripGuard / black

BEDNAR PERFECT PULLER® (PATENTED)

Named for and originally developed by the late Hall of Fame Archer Bill Bednar, this tool is designed to pull arrows from high density targets. Includes three interchangeable grippers sized to fit different shaft diameters of both crossbow and compound arrows. In addition, the hunter orange handles are notched to create a built in nock tool.

- HCA-104 Bednar Perfect Puller (with interchangeable grippers)

BUTT PLATE EXTENSION

TenPoint's Butt Plate Extension extends the length of your Carbon Nitro RDX, Turbo GT, or Titan SS by 1 1/8" or 1 3/8".

* Not compatible with any other model.

- HCA-007 Butt Plate Extension

ARROW RETENTION BRUSH

A replacement for the Arrow Retention Spring, this innovative, high quality nylon-filament Arrow Retention Brush improves arrow grip and alignment while reducing noise and vibration.

- HCA-108 Arrow Retention Brush

ROPE-COCKER

Reduces cocking effort by 50%. This ultra-durable crossbow rope-cocker features an abrasion-resistant, high tenacity polyester cord, custom dyed in high-visibility hunter orange.

- WRA000.B Rope-Cocker

[NEW] ROPE-SLED™

TenPoint's new narrow sled fits/works on all TenPoint and Horton crossbows with Functionally Superior Bullpup (FSB) stocks, including ultra-narrow and reverse-draw crossbows (except the Nitro X) and most Wicked Ridge crossbows, reducing the cocking effort by 50%.

- [NEW]** HCA-000-RS Rope-Sled

NOTE: When installing most cables, twist the bottom yoke (located at the end of each cable) four times and the top yoke one time.

** Twist the Vapor top yokes three full twists, and the bottom yokes three full twists – the string & cables are pre-twisted, and do not require additional twists.

***Twist the Venom Xtra, Venom, Stealth FX4 & Lady Shadow bottom yokes four full twists – the string & cables are pre-twisted, and do not require additional twists.

Invader X4 & Warrior Ultra-Lite	HCA-75117	Pre Twisted	HCA-75017	Pre Twisted

LIMITED
LIFETIME
WARRANTY

We design, build, and test our crossbows here in the U.S.A. Doing so enables us to control the process and to use the best parts and materials available, thereby guaranteeing a final product of uncompromising quality.

Our rigorous testing standards have earned us a reputation for making some of the most durable and dependable products on the market. We validate all of our designs through a prototyping process that combines hands-on testing with automated cycle testing.

Our automated shooting simulator allows us to put thousands of shots on our bow assembly designs in a matter of days — so when the final product arrives on the shelves, it will meet your expectations.
