REVOLUTIONARY ALPHA-NOCK HP & ALPHA-BLAZE LIGHTED NOCK

DESIGNED FOR INCREASED STRING-TO-NOCK ENGAGEMENT AND SAME HOLE DOWN-RANGE ACCURACY.

TenPoint's Alpha-Nock HP features a deep bowstring groove, a large smooth radius base, and elongated ears. The string on TenPoint's extremely narrow crossbows wraps tightly around the center of the Alpha-Nock HP resulting in straight nock travel and precision down-range accuracy, while minimizing string serving wear.

The Alpha-Nock HP's deep channel design increases the string-to-nock engagement by 28% and "holds" the bowstring in place during the shot which prevents "shoot-over" or "shoot-under".

LIGHTED NOCK

NEW ALPHA-BLAZE LIGHTED NOCK WITH LED UNIT

The Alpha-Blaze Lighted Nock contains a one-piece Nock/LED unit that is indexed with the vanes and press fits into the arrow's Aluminum Bushing. Upon firing the crossbow, the bowstring's force compresses the two pieces and activates the lighted nock.

Deactivate the easy on/off Alpha-Blaze lighted nock by pulling the nock straight out until the light turns off – no tools required. The LED light of the Alpha-Blaze system lasts for approximately eight hours when activated.

The system features TenPoint's NEW Alpha-Nock HP that is equipped with an HP Aluminum Bushing for increased strength and accuracy.

BE SURE THE ALPHA-NOCK'S RAISED LINE INDEXING FEATURE IS PROPERLY ALIGNED WITH THE ODD COLORED VANE ON YOUR ARROW (AS SHOWN ABOVE).

* All TenPoint and Wicked Ridge crossbows require the use of an Alpha-Nock Arrow. Failure to do so will void the manufacturer's warranty.
